

Letter of Recommendation

I have been working with Mrs. Anastasia Byler for more than 5 years. During these 5 years I entrusted her with more than 20 editing assignments. In all cases, I was highly pleased with Mrs. Byler's work which can be characterized by preciseness, excellent linguistic skills and a profound grasp of contents.

Also she fulfilled all tasks, regardless of how demanding they were, in every respect, such as the shortening of manuscripts, the implementation of complex reviewers' comments in linguistic terms (requirements for linguistical improvements, specifications).

Anastasia works accurately and reliably but quickly at the same time. In all cases, stipulated deadlines were met. Frequently, the manuscripts were delivered before the deadline had passed.

My interactions with Anastasia were always friendly and productive.

I have recommended Anastasia's services to more than 10 colleagues who were also pleased in all cases.

I can fully recommend her without any hesitation.
